TRAINING ON DETECTION OF FOOD ADULTERATION, ADDITIVES AND WATER QUALITY ANALYSIS

Department of microbiology provided a “Training in Detection of food adulteration, additives and water quality analysis” to the students in the academic year 2022-2023. The course was aimed to make a thorough understanding of the laboratory skill with hands on experience in water quality analysis, food adulteration and additives. 37 Students from MSc Microbiology were completed the course. The training program was conducted in collaboration with Amplicon Biolabs KINFRA Kakkencheri.

Technical sessions

Sn	Date	Time	Key speaker/ Trainer	Title
1	22/11/22	10. am	Dr. Akhilesh VP	Introducing about Equipments used in the lab
2	22/11/22	11:30 am	Ms. Rinsha	Microbiological analysis of drinking water and its quality analysis
3	23/11/22	10 am	Ms Murshida KC	Food adulteration and additives
4	31/03/22	11: 30 am	Ms Rinsha	Training in detection of food adulteration, additives

As part of the training Dr Akhilesh VP Senior Analyst, demonstrated all the microbiological tests used in water analysis and Detection of food adulteration and additives. The 2 day certificate course was winded up with valedictory session. Certificates were issued to Students. The program helped students to have job prospects in packaged drinking water and beverage industry, food industry and made the more confident to work in these industries.
