INVITATION

EMEA College of Arts and Science is one of the prestigious and most sought after arts and science colleges in Malabar. Affiliated to the University of Calicut, the college offers up-to-date, advanced and job oriented courses in the vast expanding horizons of humanities and science and technology. The college is run by Ernad, Muslim Educational Association and is just a stone throw from Calicut International Airport, 6 KMs from Calicut University and 3KMs from Calicut city.

Every year our students bring laurels to the college in academics and in various arts and sports events. In its pursuit to become a top-notch arts and science college, EMEA is continuously striving to establish world class infrastructure on the campus in order to meet the aspirations of the students.

The college provides a plethora of courses among which the under graduate programme in computer science stands apart with state of the art facilities and a dedicated and innovative teaching staff abreast of the latest developments in the field. Sharing and disseminating knowledge, generating discussions and engaging with the sharpest brains in the industry come as second nature to the department. In keeping with this tradition, we are organizing -one day national seminar on the 5th march 2018. In tune with our mission of providing excellent exposure to our students, we thought of selecting "integrated case tools" one of the latest and fast growing areas in the IT sector as the topic of the seminar.

Our objective is to obtain knowledge on Computer-aided Software Engineering (CASE) tools, which helps to design and implement software applications.

The programme, we hope, will act as platform for the truly inspired to take a plunge into the field and make substantial contributions to this discipline.

We solicit your esteemed presence for this event.
