

E-GOVERNANCE REPORT

Screen short of ERP softwares, Mobile applications and open source integrated library management system

EMEA COLLEGE OF
ARTS & SCIENCE

Affiliated to the University of Calicut | Re Accredited with A Grade by NAAC
Kondotty, Malappuram Kerala - 673638

E-Governance

Definition: E-governance, expands to **electronic governance**, is the integration of **Information and Communication Technology (ICT)** in all the processes, with the aim of enhancing government ability to address the needs of the general public. The basic purpose of e-governance is to simplify processes for all, i.e. government, citizens, businesses, etc. at National, State and local levels.

In short, it is the use of electronic means, to **promote good governance**. It connotes the implementation of information technology in the organizational processes and functions so as to cause **simple, moral, accountable and transparent governance**. It entails the access and delivery of institutional services, dissemination of information, communication in a quick and efficient manner.

Enterprise Resource Planning (ERP)

Definition: Enterprise Resource Planning, or otherwise known as ERP is an integrated software application, which firms use to manage and control their internal and external resources comprising financial resources, material, assets and human resources.

Put simply, ERP system unites various functions of management into a rationally integrated system to streamline processes and enable the movement of information among all business function. It can be understood as a description of systems wherein innovative information technology is used to manage all functional areas in an organization

Benefits of E-governance

- High transparency
- Increased convenience
- Direct participation of constituents
- Reduction in overall cost.
- Expanded reach of beneficiaries

ERP Benefits

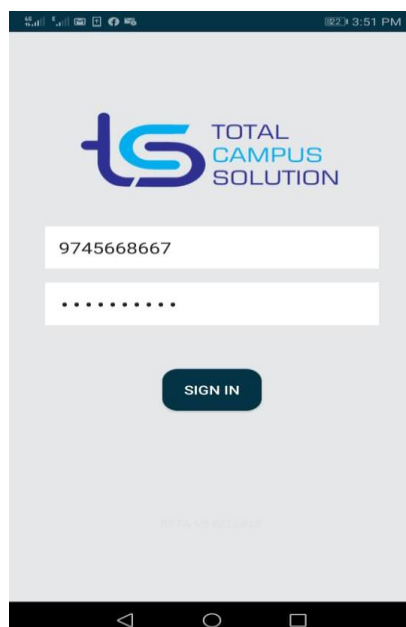

- Reduce the involvement of administration without affecting education
- Handover responsibilities without losing control

- Improve efficiency with existing number of non-teaching staff
- Remain competitive by identifying areas for cost reduction
- Strike a balance between stakeholder interests and educational responsibilities
- Set a path towards a model organization with Campus Management module
- Reduce the time spent by teaching staff on administrative tasks and help them increase the time spend on core-competencies
- One-time master data entry
- Manage Student & Parent related information
- Integration with self-help kiosks
- Lead tracking with no errors.
- Proper allocations and planning.
- Integrated library information system.
- Separate modules for separate department
- Customized reporting

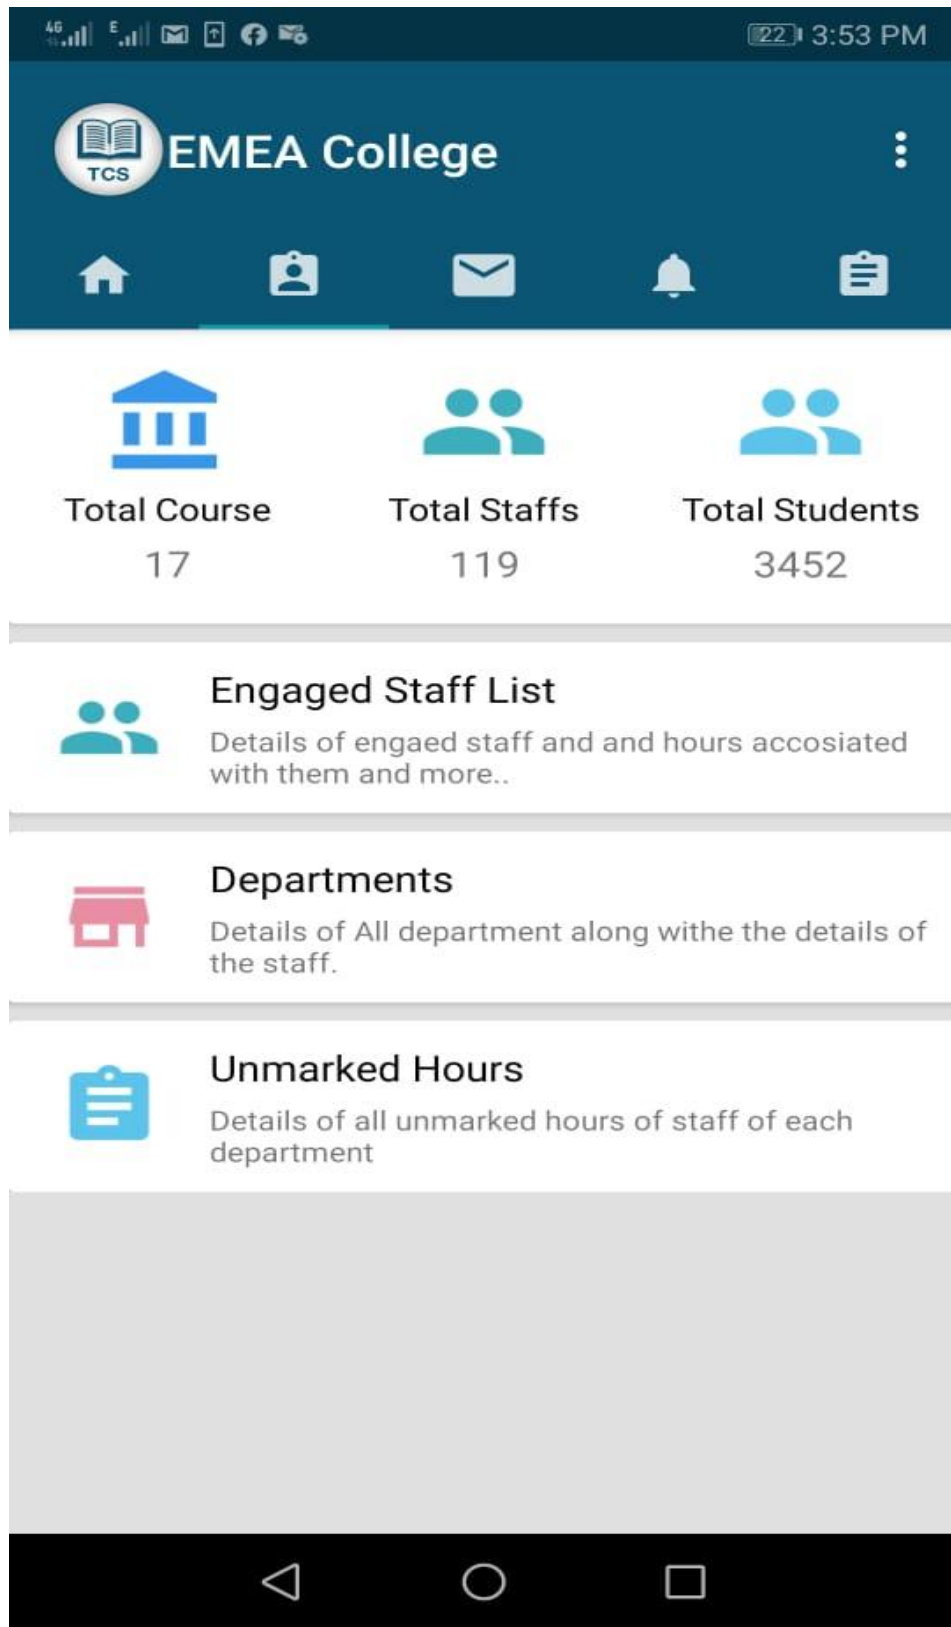

TOTAL CAMPUS SOLUTION

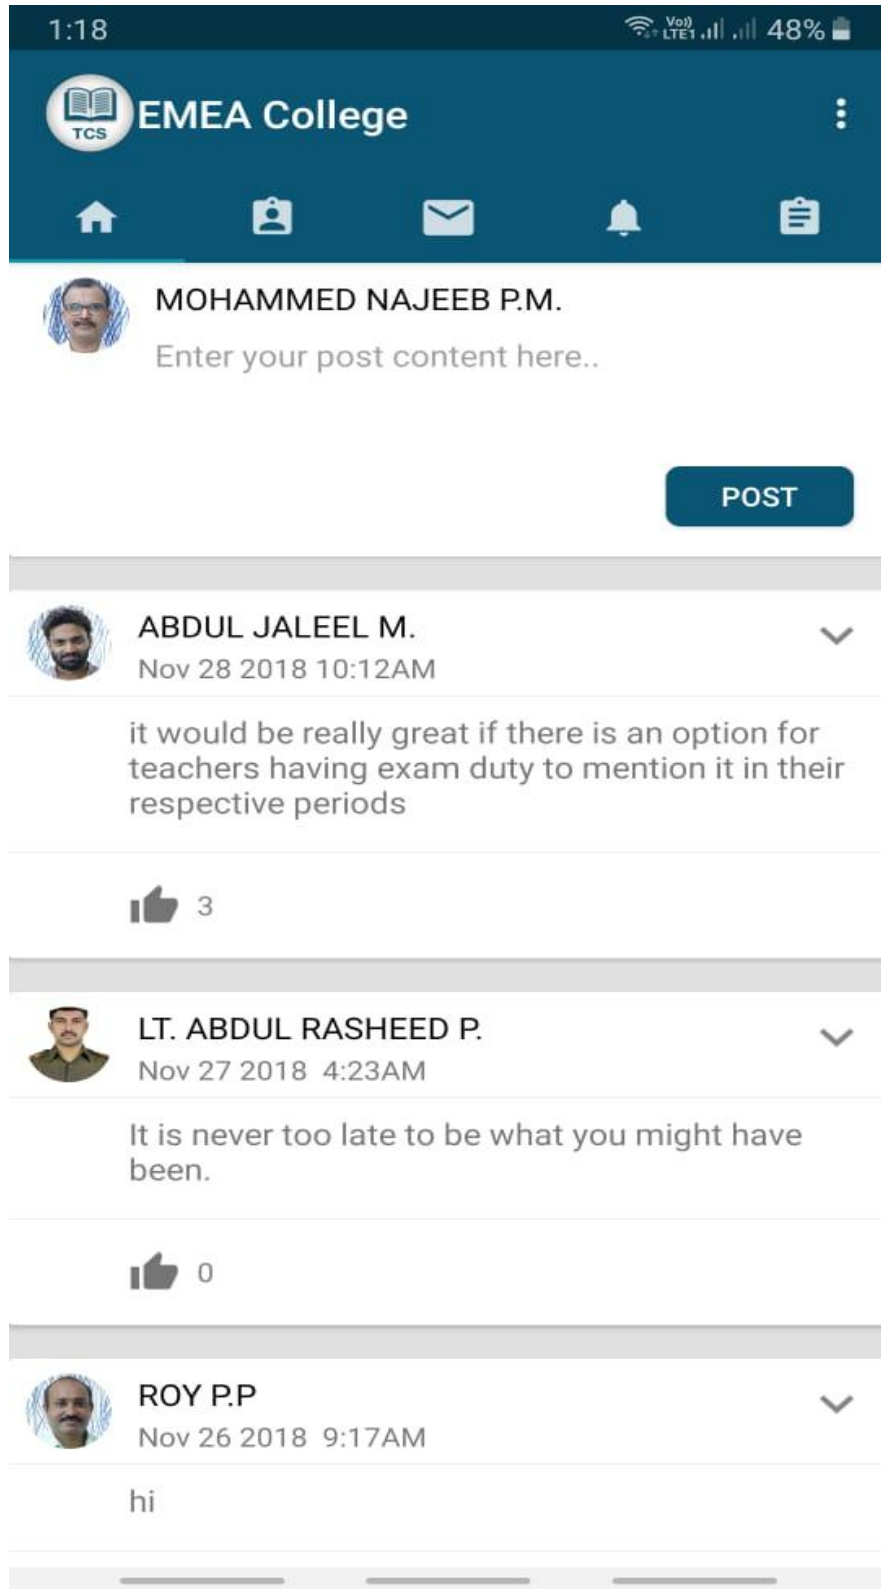

The management of a college and other higher educational institution may require a more proactive approach in making decision by the administration, and require the information at hand in most cases. Apart from the automation, there must be a control of work flow to make the activities of the institution streamlined and to improve the accountability of decisions, activities and operations in achieving the aims and objectives of the institution. Data analysis and reports should not only be comprehensive, but, it must be useful to influence the decisions. Hence, the name, Total Campus Solution Integrates Client server, Web technology and embedded system technology to provide a complete solution for both Government / Aided / Self Financing Institutions. Elegant in its operations concept of a Service Oriented Approach. Effective linking among faculty, parents, administrator and students to enter data and view reports of their own realm, but with the poll and nose knot headstall halter with administration.

Student ID Card Generation

BIZNET

Inventory Control and Financial Accounting System

Trading organizations may have operations from multiple locations /country with one or more warehouses located at geographically distant locations. It is no doubt that such an organization needs a network to integrate and control its operation. Biznet provide the control of trading activity such as purchase /sales billing, stock management such as delivery and receipts of goods, return of goods purchased or sold, stock movements, package management such as assembling and de-assembling of goods, ware house management such as Bin location, delivery note generation etc. integrated with Financial Accounting system which generate vouchers for cash receipts / payments, bank receipts /payment, etc. Integrated with purchase and sales invoice to automatically update the accounts ledgers. All updated final accounts reports. Most useful feature is the bill to bill accounting which automatically prepare detailed customer outstanding from the daily transaction data.

Financial Accounting

Financial Accounting has some Unique features:

- 
Ease Of Use
 Easy installation of new System.Current Lists In Modify and Delete.Full Screen displays multiple Records. Accounts Receivable
- 
Accounts Receivable
 No limit of Customers,Support Receipt of Partial Payments On invoices.Accounts Receivable Aging Report
- 
Accounts Payable
 No limit of vendors.You may use Alpha or Numeric characters.Accounts Payable Aging Report.Select invoices By Due Date, Vendor.
- 
Network Ready/Multi-User
 Supported Networked Installation. Multiple Users Can Use the Same Modules Simultaneously
- 
General Ledger
 Double Entry Accounting, Trial Balance Sheet, Year End Balance Sheet And Income Statement, General Ledger Activity Report, Supports Multiple Bank Accounts

Ledger Report

KOHA

Open Source Integrated Library Software

Koha is the first open-source integrated library software (ILS) used worldwide by all kind of libraries from public, school and special libraries. The ILS is developed at a modern platform and is a web-based solution for the libraries. Koha uses SQL database (MySQL preferred) as backend and its cataloguing data stored is in MARC and is accessible via Z39.50 protocol. Koha is integrated library software that has state of the art web based interface, enhanced content and substance, provides faceted navigation, provisions keyword searching, up-gradation and development through user contribution and provides Rich Site Summary (RSS) feeds that make it unique integrated library software in the world. At present Koha has four specific language websites including French, Chinese, Italian and Spanish.

Koha Feature

- A full featured modern integrated library software (ILS).
- Award winning and free/Open-source Software. (no license fee).
- OS independent any operating system. Linux, Unix, Mac.
- Web based. Web-based Interfaces. We can integrate with website.
- Full MARC21 and UNIMARC support for professional cataloguing.
- Multilingual and multi-user support
- Library-Standards-Compliant. industrial standards & protocols.
- Z39.50 server.
- Customizable web based opac. circulation system.
- Online reservation.
- Full catalogue, circulation, acquisitions, library stock management.
- Web based OPAC, public to search the catalogue.
- Major industry-standard database type (text, RDBMS), SQL, MYSQL.
- Serial management module.
- Print your barcode.
- Export and import records, ISO2709

Features of Koha

Acquisitions: Koha has a acquisitions module with complete functionality of recommendation, ordering, receiving, invoicing, budgeting, book funding, setting suppliers and exchange rates.

Circulation: a complete featured and powerful circulation module with customised circulation rules to suit any kind of library; it fully automates the borrowing and item management.

OPAC-Koha has all the elements and attributes of OPAC with a simple and clear interface, and in addition to it also supports content from sources of collections like Amazon, Google Books, etc.

Flexible reporting: Koha provides access to the RDBMS, so reports can be easily customised and prepared as per the individual requirements.

Customisable item types: The catalogue items can be opted as per the preference and requirements of the individual libraries.

Barcode/ RFID: The ILS Koha is based on the web browser and it is fully compatible with all kinds of barcode, QR codes, RFIDs and other similar technologies.

User management: The software provides incorporation with systems like LDAP, Active Directory, Radius and SAML to allow single sign-on facility for the user's management.

Metadata: Koha has a potential to generate a qualitative metadata, it uses a full text indexing engine to allow for speedy and authoritative searching of metadata.

Standards: Koha uses all latest standards including MARC21, UNIMARC, Z39.50, SRU/SW, SIP2 and many more are supported.

Automated overdue notices: Overdue notices are either provided by email or SMS. Consortia Mode: The ILS can work as multi-branch or single-branch mode in the consortia mode.

Translations: Koha is translated into many languages and is available in nearly 62 languages

Offline circulation: Koha also provides provision to do offline circulations

Self-Check: Koha also facilitates the use with SIP2 compliant self-check-in, check-out machines.

Faceted searching: Koha provides the federated search results which are classified for its users.

Koha Modules

- Administration
- OPAC
- Cataloguing
- Circulation
- Serials
- Acquisitions
- Patron

Koha Administration

Koha Administration provides various system parameters for the functioning of Koha libraries and groups, defines item types and the authorized values. Global System preference is the most

important module of Koha which deals with administration and maintenance and manages preferences like MARC, date format, administrator email and various templates

The image shows a login form for the Koha system. At the top, it features the Koha logo and the text "OPEN-SOURCE INTEGRATED LIBRARY SYSTEM". Below this, there are three input fields: "Username:" with the text "Librarian" entered, "Password:" with a masked password of ten dots, and "Library:" with a dropdown menu showing "My library". A "Login" button is positioned to the right of the library dropdown.

KOHA Login Page

The image displays the Koha Home Page. At the top, there is a navigation bar with links for "Circulation", "Patrons", "Search", "Cart", and "More". On the right side of the navigation bar, it shows the user's role as "Librarian" and the library name "EMEA COLLEGE LIBRARY", along with a "Help" link. Below the navigation bar, there is a search bar with the placeholder text "Enter patron card number or partial name:" and a "Submit" button. A "Check out" button is also visible. The main content area is divided into two columns of buttons. The left column includes "Circulation", "Patrons", "Advanced search", "Lists", and "Authorities". The right column includes "Cataloging", "Serials", "Acquisitions", "Reports", "Tools", "Koha administration", and "About Koha". A large green graphic is partially visible on the left side of the page.

KOHA Home Page

DSpace

Open Source Repository Software Package

DSpace is an open source repository application that allows to capture, store, index, preserve and distribute our digital material including text, video, audio and data. DSpace provides a way to manage our materials and publications in a professionally maintained repository to give them greater visibility and accessibility over time. Dspace software is a digital library system designed to capture, store, index, preserve and re-distributes the academic output of a university's research faculty in digital formats. The Dspace is developed jointly by HP labs and MIT libraries. This article describes the Dspace system, types of Dspace content and discusses the use of Dspace for institutional repository.

The most important features of DSpace are as follows.

- Free open source software
- Completely customizable to fit user needs
- Manage and preserve all format of digital content (PDF, Word, JPEG, MPEG, TIFF files)
- Apache SOLR based search for metadata and full text contents
- UTF-8 Support
- Interface available in 22 languages
- Granular group based access control, allowing setting permissions down to the level of individual files
- Optimized for Google Scholar indexing

It has three main roles:

- Facilitates the capture and ingest of materials, including metadata about the materials
- Facilitates easy access to the materials, both by listing and searching
- Facilitates the long-term preservation of the materials

DSpace can be used to store any type of digital materials, including:

- Documents, such as articles, preprints, working papers, technical reports, conference papers
- Books
- Theses
- Data sets
- Computer programs

- Visualizations, simulations, and other models
- Multimedia publications
- Administrative records
- Published books
- Overlay journals
- Bibliographic datasets
- Images
- Audio files
- Video files
- e-formatted digital library collections
- Learning objects
- Web pages

Benefits of using Dspace in Digital Library

DSpace is a turnkey repository application it may be deployed “out-of-the-box” as an institutional repository. The majority of DSpace users do little to no customization of the application beyond adding local branding. DSpace allows to:

- Organize, describe and store your content easily through the built-in structure
 - Archive and distribute material you would currently put on your personal website
 - Get your materials out quickly, to a worldwide audience through exposure to search engines such as Google
 - Have a persistent network identifier for your work, which never changes or breaks
- Additionally, DSpace allows institutional repositories to:
- Preserve reusable teaching materials that you can use with course management systems
 - Store examples of students’ projects (with the students’ permission) Showcase students’ theses (again with permission)
 - Keep track of your own publications/bibliography
 - DSpace is open source digital library software that provides facility to organize all types of content in digital format. It provides access facility for a particular document in a different way like, Author search, Title search, subject search, and date of submission.

[DSpace Home](#)

DSpace Repository

DSpace is a digital service that collects, preserves, and distributes digital material. Repositories are important tools for preserving an organization's legacy; they facilitate digital preservation and scholarly communication.

OPAC

Online Public Access Catalogue

An online public access catalog (often abbreviated as OPAC or simply "library catalog") is an online database of materials held by a library or group of libraries. Users typically search a library catalog to locate books, periodicals, or other items under control of a library.

EASY BIZ

Accounting & Inventory Management Software

Accounting & Inventory Management Software EasyBiz is an accounting software specifically designed for small businesses. It is an accounting solution that create invoices, track expenses and manage inventory, helping you save time and manage finances efficiently.

Main Features:

➤ Accounting

An in-built financial accounting system that tracks transactions from sales, purchase, inventory, payroll, and expenses to give a complete picture of company's financial status.

➤ Inventory Management

Helps to categorize products, know low stock items and invest in right inventory to increase business revenue.

➤ Detailed Reports

Keep track of all transactions with detailed reports. View all types of transactions from reports section

➤ Balance Sheet

Balance sheet is one stop show to know the overall status of business. It gives details about current Cash-in hand, Stock Value, Expenses, Bank account balances. etc. at one place.

COURSE OUTLINE TEMPLATE

Teaching & Learning Management Template

Students aspiring to take up a training course are always on the lookout of a course outline. A **course outline template** is thus really useful as it allows you to present the gist of the course so that the aspiring students can have an overview of the program at a glance. Without an outline it is not possible to get a proper view of the **course**. Course outlines are critical resources that help students understand the course: its aims, learning outcomes, course requirements and assessment.

EMEA College library was instituted with the inception of college in 1982. The library was started in the commerce block and finally moved to the existing newly constructed building in 2014. The central library of EMEA Arts and Science College was named after the late founder as Shihab Thangal Central Library and Research Center. The primary aim of the library is to establish a learning environment for the users as well as to encourage and support the professional & individual growth of EMEA community in the search for knowledge. The library promises to promote the mission of the college by empowering academic community of the College with enriching collections, innovative services, and state-of-art technologies as well as to discover, preserve and disseminate knowledge. It act as a centre for the collection of resources predominantly related to all subjects offered by the college. The college library which is an integral part of the higher educational institution plays a pivotal role in acquiring and providing access to books, periodicals and other media that meet the educational and informational needs of its users in a stimulating, scholarly environment conducive to academic pursuits.

About EMEA College

E.M.E.A. College of Arts and Science, Kondotti is fast emerging as a resourceful destination for higher studies in Malabar, spreading the fragrance of education in the society. This college is affiliated to University of Calicut. The college offers up-to-date, advanced and job-oriented courses in the vast expanding horizon of humanities, science and technology.

The college is situated at Kumminiparamba in Kondotti, 6 KMs away from Calicut University, 2 KMs from Calicut International Airport, 18 KMs from Feroke Railway Station, and 32 KMs from Calicut City; with a congenial atmosphere for academic pursuits. The place is ideally suited for the growth and development of educational institutions for higher learning. The institution aims at the overall development of this backward area of Kerala by opening new vistas of opportunities to the future generations, without any discrimination against caste, creed, sex or colour.

The college is run by Ernad Muslim Educational Association, which was formed with the objective of establishing a chain of educational institutions and cultural centers to cater to the needs of educationally and culturally backward section of the community. The college is a stepping-stone to realize the objectives envisaged by the Association.

Established on 1st November 1982 as a junior college, it flourished as a post graduate college today.

About IJARED

International Journal of Advanced Research in Emerging Disciplines (IJARED, ISSN: 2348-3342) is a venture of EMEA College published annually along with the provisions for special issues whenever it is required. The journal starts publishing since 2013 with ISSN: 2348-3342. It aims at providing a platform to young researchers, teachers and academics of colleges, universities and institutions to express divergent views on various issues of academic and social importance exploring the emerging ideas in the fields of humanities. IJARED will be regularly published in the month of June and will be a fully refereed journal. Economy, Polity, Society, language and literature and other studies of interdisciplinary importance are identified as the thrust areas including others. IJARED welcomes contributions from the relevant disciplines.

SPARK

e- Governance Service and Payroll Administration

SPARK (Service and Payroll Administrative Repository of Kerala), is an e- Governance endeavor under Finance Department, Govt of Kerala, operational since 2007. State Government has ventured this project with a vision to digitize all HR related service and salary data of Government employees. In order to achieve this vision SPARK has been implemented in all the State Government Establishments covering 39 Government Departments, under which 122 Field Departments and over 30000 offices spread across the State. As per our data about 5 lakhs employees are currently being benefitted from this facility. Service books of all employees in state service have been digitalized through this software.

Notice Board

Service and Payroll Administrative Repository for Kerala is an Integrated Personnel, Payroll and Accounts information system for all the Employees in Government of Kerala. The system caters to the Personnel Administration, Payroll and other Accounts activities of Government Establishments. Every employee is allotted with a unique Permanent Employee Number (PEN) through the system. This Centralized system helps the departments to get details of any employee immediately, achieve highest level of transparency in dealing with the employees, more consistent application of rules etc. In the payroll side, accurate and automatic payroll processing is facilitated. It also ensures that the rules and regulations are uniformly applied to all employees there by avoiding complaints and achieving better employee relations...
