MEDICAL CODING -CAREER GUIDANCE

P.G Department of Microbiology as part of department activity-"Microbiome" , conducted a career guidance program on "Medical coding" on 01/02/2019 .Skilled trainers handled the session. Medical Coding is fast emerging and lucrative career for Life Science students. Medical coding is the transformation of health care diagnosis, procedures, medical services and equipment into universal medical alphanumeric codes. The adoption of new coding standards has led to more US based health care clients looking to outsource these processes. Session was informative and students had good interaction with the Trainers.
