Coordinator - JISHA PJ, Ph: 9995 630 321

Microbiology is a diverse and rapidly evolving field with a wide range of career opportunities. This seminar mainly focussed students' attraction in starting a career of their own by developing an incubation centre. Incubation centres have become a cornerstone of innovation and entrepreneurship across various sectors.

The welcome speech was delivered by career guidance cell coordinator, Ms. Jisha P J and the program was inaugurated by Lt. Abdul Rasheed, Principal, EMEA College. Presidential address was delivered by Dr. Shiji Thomas, HOD of Microbiology. The Resource person of the program was Dr. Vimal K P, senior Microbiologist, Zeus Biotech private Limited, Mysore. About 120 students participated in the session.

This report focuses on the development of incubation centres, highlighting their role in fostering career development and guidance. The primary objective of incubation centres is to nurture and support startups and innovators. However, our specific focus has been on integrating comprehensive career guidance into the incubation ecosystem. Incubation centres have become a cornerstone of innovation and entrepreneurship across various sectors.

Some centres provide access to shared resources, such as libraries, databases, and specialized software, which can be valuable for microbiological research and development. Microbiology incubation centres play a vital role in advancing microbiological research and translating scientific discoveries into real-world applications. They are valuable assets for individuals and teams looking to explore the diverse opportunities that microbiology offers, from healthcare and biotechnology to environmental science and food safety.

The Career Guidance Cell of the Microbiology Department has played a crucial role in empowering students to make informed career decisions and enhancing their employability. With continued dedication and support, the CGC will continue to thrive and serve as a valuable resource for microbiology student. For microbiology-based startups, incubation centres may offer assistance in bringing products or services to market. This can involve help with product development, prototyping, and navigating the regulatory landscape.

GUEST SPEAKER PROFILE

I am Saife Valappara-Career Designer | Skill Finder | Mind Solutionist. My Youtube Channel & Instagram will provide you with answer that may be useful in making that critical career or educational decisions.

Choosing a career or the best course can be challenging, whether the person making the decision is a parent of a young child or not. Since I am aware of these difficulties, for the past 7 years I have assisted people in making educated decisions about their higher education, careers, and professions by educating them about available courses and career options. You have therefore come to the right place if you someone who is lost and is searching desperately for answers.

Sometimes all one needs is a little assistance to stand tall and proud. With this understanding from my life journey, I knock on your social media every day with hopeful reminders of motivation and strength.
