REPORTS OF GENDER ACTIVITES 2020-21

Gender: Sensitization and Awareness

Gender sensitization refers to **the raising sensitization of gender equality concerns**. It helps people in examining their personal attitudes and beliefs and questioning the realities of both sexes. Gender Sensitization is **one basic requirement for the normal development of any individual**. Without being sensitive to the particular gender, an individual may refrain from understanding the opposite gender and in some acute cases even him or herself.

Content of the talk:

The resource person Dr. Rafeeq sir started his talk by introducing certain terminologies like sex, gender, gender identity, gender transition, gender dysorpha etc in very simple way. Though a very sensitive topic he pulled off with so ease. He threw light on the fact of gender identity crisis in the society. He also stated the difference between gender identity and gender expression. He discussed on the sexual orientation of person having gender transition. He explained the agony and trauma a human face when there is a conflict within them on their gender identity, sounded really painful. His talk proved to be more worthy for understanding those marginalized sects of people and made to change our prejudistic mind on those humans. Equal space and inclusiveness lit everyone's thought.
