Not of those who went astray.

COLLEGE: IN SUCCINCT

Introduction

Ernad Muslim Educational Association was formed with the objective of establishing a chain of educational institutions and cultural centres to cater to the needs of the educationally and culturally backward sections of the community.

The EMEA College, started in 1982-83, was the beginning towards the march for the realisation of this objective.

The College is situated at Kumminiparamba within ear-shot from Calicut Airport, 6 Kms away from Calicut University and 32 Kms from Calicut City.

With a congenial atmosphere for academic pursuits the place is ideally suited for the growth and development of an institution for higher learning. Far from madding crowd, ignoble strife, this institution aims at the overall development of this backward area of Kerala by opening new vistas of opportunities to the coming generations without any distinction of caste, creed or colour. The college is run by an elected body of the Ernad Muslim Educational Association, is named after the Association, the E.M.E.A. College of Arts and Science.

Vision Statement

To be a centre of excellence in higher education affordable to common man.

Mission Statement

Identifying and developing the latent talents of the youth and moulding them into useful citizens with due emphasis on right character formation is the avowed mission of EMEA College. The fulfilment of this lofty goal is the basis of educational programmes formulated and pursued by the institution.

Our Quality Policy

We are committed in providing quality education so as to enable the students to face the challenges of the times.

The Emblem

The emblem symbolises knowledge, the world in abundance, the panoramic beauty of Kerala and the values of life.

On the top of the emblem is a verse from the Holy Qur'an which means " He Taught man that which he knew not" (96:5).

The ocean represents; life in its totality through which each person journeys, until he reaches his destination under the guidance of the beacon light of EMEA. The coconut tree stands for the scenic ambience, the ideal location the campus provides for educational pursuits. Flanking the emblem is the full name of the organisation that runs the institution.

Since debating is largely about developing arguments that are stronger than the arguments of the other side of the debating. But it's not just the quality of the argument; it's also the delivery, i.e. being able to present your argument in an understandable way. In that sense, debating is an excellent way of practicing public speaking skills. In addition, debating is interactive both because there is a possibility to ask questions during a speech and because the speeches themselves should always relate to the other speeches of the debating. Hence, developing communication skills in general is possible. The language of debating is English, which for most of us is not the first language, and using one's language skills in such a dynamic way is sure to improve them. It's also very important to remember the improvement one can notice in thinking skills after debating for time. Because people will often have to debating against their own personal opinions, debating inevitably improves critical thinking skills. One has to

be able to question one's own opinions and see many different points of view to an issue. Also, because the preparation time for the debating is very short, only 15 minutes, and one might be asked unexpected questions during the debating, one also learns to think fast, and think well.
