Webinar on James webb space telescope.

A webinar was conducted in connection with the international space week on the topic James web telescope in association with break through science society. The resource person was Sajeev T Prabhakar, an amateur astronomer. The program was started with the welcome speech by the head of the department Dr. Ramsiya M. Then Sajeev sir explains the functioning of James web Telescope and an analysis on the images sent by it. JWT is one of the efforts by scientists to observe the space and the celestial events. The program was

very interesting to all participants. The webinar extend up to 1.5 hrs. At the end of the session, there is an interactive session which the help the students to clear their doubts. The program ended with the vote of thanks by Ansaba.
