Background and Relevance of the Cleanliness Drive

The Cleanliness Drive 2021 programme was designed to acknowledge and protect places of historical and cultural significance and to ensure such places are well maintained and orderly. N.C.C selected Mini Ooty as the site of mission due to its proximity to the college location, its scenic beauty that attracts tourists' attention and the need to keep it protected and well kept. Mini Ooty located in the Arimbra hills has various hiking points and is rich in biodiversity. Situated at 1050 feet from the sea level, it is one of the best tourist spots in Malappuram district. The programme also aimed to be a nature exploration experience for the N.C.C cadets.

Promoting sustainable tourism that does not affect the natural balance and ecosystem is the need of the hour. Since Mini Ooty holds such an undeniable place in the geography of Malappuram it is the duty of N.C.C cadets to ensure the place is protected from plastic and non-bio degradable waste and exploitation. The cleaning programme can encourage the local community to protect Mini Ooty. Setting dustbins in premises helps to have an effective waste disposal at Mini Ooty. It can also be a learning system opportunity for the cadets to appreciate and explore the nature.

CLEANLINESS DRIVE 2021

The team NCC of EMEA Collage of Arts and Science Kondotty had conducted a cleanliness drive as a part of 'Swatchatha Pakwatha' on 12th September 2021. Good social hygiene is important for both health and social reasons. Not only personal hygiene but also making our neighbourhood hygienic is very important. Therefore the programme was a part of social responsibility. The programme was conducted at Mini Ooty and Thiruvonamala. All Cadets were requested to assemble at the college by 9:00 am. Almost 25 Cadets were present in the programme. The School bus drove off at sharp 10:00 from the college to Thiruvonamala with cadets. The event included the agendas like 'tourist and historical place cleaning', 'Setting waste bins' and 'Trekking'. The event was concluded with photo session from all those scenic spots.

TREKKING AND CLEANING

The programme begins with Trekking at Thiruvonamala under the guidance of ANO Lt Abdul Rasheed, Prof Shihabudheen Paikkarathodi and UO Muzammil PT. Cadets were requested to bring drinking water, and umbrella as it was a rainy day. All of them were very much interested in doing this activity. Cadets cleaned almost all tourists spot in Thiruvonamala which was completely stuffed with plastic garbage. Cadets brought plastic carry bags to collect them and disposed all the garbage perfectly. This was followed by photo section from the scenic spot. The scenic beauty of nature made the photos more attractive.

SETTING WASTEBINS

After visiting Thiruvonamala the location was changed to Mini Ooty. All cadets were very much active in collecting plastic garbage. Apart from cleaning the Cadets of EMEA ARTS AND SCIENCE KONDOTTY had placed dust bins at various spots in Mini Ooty. The cadets were provided with Tea and Snacks for refreshments followed by photo session from Tourists spots. The programme wrapped up at sharp 3:00 am and the bus drove back to the college.

Cleanliness is a part of life. All these programs was conducted under 'Swatchatha Pakwadha'.It is the most significant campaign initiated by the government of India. Through this programme a sense of responsibility has been evoked among Indian citizen. Therefore the programme conducted by NCC of EMEA Collage of Arts and Science Kondotty was a great success.
